COURSE DESCRIPTION:

Global cities are the epicenters of society. Everything happens within their boundaries and yet these global giants are often shaken and paralyzed by the demographic realities and trends that are prevalent within their borders. But in this city, a movement of redemption is taking place. The lives of individuals are being radically transformed because of the spiritual leaders who are answering their call. *Spiritual Leadership in the Global City* is a contemporary study of the extraordinary spiritual leaders God has called out to be a sphere of influence in the global city of New York. These leaders are working out of not only their passion but also an understanding of their context. They are bridging gaps and have formed a network of multiethnic and multid denominational churches that are seeing results from their labor. Recognized urban voice and spiritual leader Mac Pier has compiled the stories of these leaders and the churches that are collaborating at historic levels to transform lives in the city and the city itself. By following the examples set forth in *Spiritual Leadership in the Global City*, you will see a difference in your community as well.
